League of Stickman APK mod (unlimited money, coins, gems, free shopping). Today there are many types of games on the market, but for entertainment and pure entertainment, action games are always a priority for the players (usually boys). In the middle of the village of game fans of intellectual games and puzzles, find a pure action game proved to be quite difficult. But this has changed with the arrival of the League of Stickman. As a pure action game, the League of Stickman does not require you to have superior tactics, does not require you to think twice about how to win. All you have to do is fight the best in each game screen. Your weapon, your speed determines whether you win or not. Despite being an action oriented game with weapons and fighting, the League of Stickman does not have too many elements of violence in it. © The reason is because the main character of the game is Stickman - The Stick Guy is too familiar to us in video clips of the game. What is shown in the game is simply spectacular and monsters always destroy as soon as you destroy. There are three game modes in the game, including the mission Play, and Play online Boss Battle. The playback mode of the mission and the boss battles have shown anything special, but the online game mode is quite a great feature. It could afford to play with other friends near you, or PvP with other players around the world. Interestingly, the creators of this game have also built a mini social network within the game. Here you can freely share pictures, characters and experiences with other players online instead to keep us online. A small but extremely handy feature in League of Stickman.
