You can also use it as a base for CWL.Farming Base: this week's farming base is more a hybrid base as many people requested it with the storages more on the outside. Don't get me wrong, this base will still protect your resources well but doesn't give away trophies that easily if you want to maintain your current league.Town Hall 11 Bases – April 19th, 2021TH11 War & CWL BaseTH11 Trophy BaseTH11 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. This will not give you successful defenses but prevent more 3-Stars and worked effectively as there are enough players that will give you a cheap shield.Farming Base: this universal base has the Dark Elixir storage in the core but also has the other storages in the second line of compartments, giving them some protection as well.Town Hall 11 Bases – January 18th, 2021TH11 War & CWL BaseTH11 Trophy BaseTH11 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. Other than that, this base uses pretty standard defensive techniques that you can expect and no other TH11 was able to 3-Star it so far.Trophy Base: This is a real Legend League base (of course also working in lower trophy ranges), and it does anything needed to protect your trophies, with a core that is incredibly hard to crack.Farming Base: a great farming base that also puts other storages than Dark Elixir into the better protected zones. I had several requests to also design a farming base that is not primarily for protecting Dark Elixir so here we go.Town Hall 11 Bases – January 11th, 2021TH11 War & CWL BaseTH11 Trophy BaseTH11 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. Works really well against the current meta strategies and I haven't seen any TH11 getting 3 stars out of this base so far in tests and also 2 regular wars.Trophy Base: what? No ring base? Yes, I wanted to try out some new things after all those ring bases lately, also as I feel that more and more attackers at TH11 start picking up the right strategy to beat ring bases. This base focus on having multiple compartments and the attacker needs to go to the core as fast as possible to have a chance. Hard to beat, fun to watch, what else could you possibly want?Farming Base: I admit that the storages are a little more on the outside but that helps a lot keeping attackers away from the core where the Dark Elixir is. If you don't give much about protecting your Dark Elixir right now you rather want to try last week's farming base.Town Hall 11 Bases – December 7th, 2020TH11 War & CWL BaseTH11 Trophy BaseTH11 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. Without an insane wide funnel there's not even the slightest chance to get anything close to 2-Star against this base, even for attackers higher than TH11.Farming Base: this base is more compact and buildings are closer together but that allows to have more smaller compartments that will protect the storages. I found this really useful while protecting loot so give this base a try.Town Hall 11 Bases – November 30th, 2020TH11 War & CWL BaseTH11 Trophy BaseTH11 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. Pretty basic mechanisms along with smart compartment design and a wide perimeter will give attackers a hard time. Make sure to load an Inferno Dragon in the cc!Trophy Base: this is a special ring base that also uses split wall segments inside the ring with some traps and teslas that has been getting more and more popular on higher Town Hall levels lately. Got nice results and you can even push towards Legend League with this base.Farming Base: Using a split core in this farming base for TH11 turned out to work really well. You have a ring of compartments that require the attacker to build a wide funnel and troop AI can also go for the side compartments instead of the core, so you will protect your resources quite well. Also as the attacker probably won't get the storages on the other side of the starting point of his attack.Town Hall 11 Bases – November 23rd, 2020TH11 War & CWL BaseTH11 Trophy BaseTH11 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. It's not specifically a 1-hit base but it won't give away the 2-Star easily and I really like how it performs against most meta attacking strategies, so no bad idea to use it if you're looking for a new base right now.Trophy Base: with this base you will protect your trophies really well and the Town Hall in the compartment core is really safe. Perimeter, ring, dead zone and multi-compartments make it hard to funnel troops into the core and attackers will fail frequently against this setup.Farming Base: this base here focus primarily on protecting your Dark Elixir and also other storages in the core with the Town Hall being offset. Clever outside perimeter and defense placement will give you a nice boost but you need to be aware that trophy protection is not the best with this base if you're planning to go towards higher leagues.Town Hall 11 Bases – November 16th, 2020TH11 War & CWL BaseTH11 Trophy BaseTH11 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. The heroes are pretty much inside the base so harder to deal with them as the attacker will need to do that while dealing with all the defenses. Very solid base that took a couple of defenses in the last war until a higher Town Hall took it down.Trophy Base: If you look at this base you will see that the Town Hall section has a huge dead zone around it with a huge perimeter at the top and a lot of small compartments at the sides and the bottom. Fighting through all sides is nasty and requires a skilled attacker to do a 3-Star against this base.Farming Base: This base has the clear focus on protecting your resources at Town Hall 11, with the Dark Elixir in the center and the other storages in the second line around it. Taking resources here requires going for the core and with all the compartments and the perimeter around it, that won't be easy.Town Hall 11 Bases – November 9th, 2020TH11 War & CWL BaseTH11 Trophy BaseTH11 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it.
