Instruments is a community for people who like to do things. Come and explore, share and make your next project with us! Have you ever thought of creating a library with thousands of free books? You should never spend a penny. It seems impossible, but it's not. Free books on almost all the subjects you can think are on the internet, ready to be downloaded, read and shared. These are the 16 best sites with free books that cover a wide variety of topics, anything, from romantic novels to computer technology manuals. A huge amount of books previously not available to the public was released starting from 2019 thanks to the law on the extension of the copyright deficient of Sonny Bono of 1998. Due to an amendment to this act, works published between 1923 and 1977 Enter the public domain 95 years after their creation. Many of the sites listed below give access to the tens of thousands of books (more films, songs and cartoons) available in this law. Downloads should be free and without remuneration under the copyright law of U.S. Multibooks is one of the best web resources for free books in a variety of download formats. There are hundreds of titles here in all kinds of interesting genres and are completely completely completely not all books are classic, so if you are in other genres, this site is a good alternative to others in this list. Unlike some sites, this allows you to browse free tongue books. You can also search for author and gender. The Manybooks articles page is another handy way to browse their collection, with articles like "books like hatchet" and book reviews. Book download requires free account access. Therefore, several download options are then administered, such as EPUB, Mobi, PDF, FB2, RTF, HTML and more. They are also readable online through the built-in booking reader of the site. A simple way to stay updated with the new titles of Manybooks is through the built-in booking reader of the site. There are free textbooks, wide notes of conferences and more. Some of the genres include computer languages and programmers, computer science, data science, data science, data science, computer engineering, Java and Networking and communications. There are also many underweets, giving you an easy way to find the book you are looking for. If you have searched a great place to find free audio books, a librivox is a good place to start. The site has many volunteers that work to release classical books quality recordings. All titles here are absolutely free, which are good news for those of us who have had to ponies on ridiculously high taxes for poor audiobooks. Author offers a good selection of free books from a variety of authors, both current and classic. They are organized in alphabetical order from the surname of the author and are written in HTML and XHTML, which means that they are in an easily readable format. Most of the books here are present in English, but there are also some texts in German. Authorism is a good selection of free high quality books, you can read directly to your browser. These are public domain books, which means that they are freely accessible and authorized to be distributed. In other words, you don't have to worry if you're looking at something illegal here. This free book is really simple to use, but perhaps too simple. The search box is really simple and the only other way to find books is scrolling through the author's list. But you don't need a user account to read these books online, and they are all formatted well. Projectà ¢ Gutenbergà ¢ is one of the largest and most ancient sources for free books on the web, with over 60,000 downloadable titles available in a wide variety of formats. The vast majority of books are released in English, but there are other languages available. If you already know what you are looking for, looking in the database by name of the author, title, language or subjects. You can also check the Top 100 list to see which other people are downloading. Browse a wide selection of free high quality books for children at the international digital children's library (ICDL). These are scans of physical books, so each page is a separate image that you can scroll and read. Check-out Searchà ¢ To obtain a general picture of how this library is organized: per age, cover cover color, length of the book, genre and more. Read Print is a library online of thousands of free books. These classics are available under the Creative Commons license and include essays, essays, fiction, games and poetry. Free registration is not required but allows you to write book reviews that you have read, add books to your favorites and merge online book clubs or discussion lists. There are several ways you can find what you are looking for at Reading, as for the keyword search for a title or author, type of work (for example, essays, games, non-fiction), list of the best books that are read online and the author's index. For example, if you are looking for books by William Shakespeare, a simple research by raising all the works of him. Once you find a book that interests you, use the Read Online button to launch it to launch it browser. You also have the opportunity to start the reading mode, if you don't like the other website reading interface. If you find a book that you really like and would like to download it to your e-reader, phone or tablet, read printing provides connections to Amazon, where you can download a title for free if you are a member of unlimited Kindle. From the Internet Archive in Archive.org, eBooks and Texts is a library of fiction, popular books, children's books, historical texts and academic books. Free books on this site extend over any possible interest. You can order these books with the count to see the most popular, in addition to the title or date published. Another way to find free books to read here is through collections like the California digital library, the Getty Research Institute and Boston Public Library. Usually there are several download options if you don't want to read the online book, such as PDF, EPUB and Kindle. Wikisource is an online library of content sent by the user and maintained. While you won't find technically books on this site, there are still hundreds of thousands of pieces of content available to read, and some are in an ebook form. The Wikisource index page is a good place to browse options. A ¢ â, ¬
