I have some lag on my phone when I log on. But The game is overall amazing with so much to do. I love the fact of being able to edit your avatar, building a base to show off you're skilled, and having fights with other people as composition, one of the best games I've played, 5-star ratingThis is a truly amazing game, it really is! I gave it a 4/5 star rating because I would like a few thigging added to the game to make the gameplay more enjoyable.For example, they should put in settings for the people they want to play with like the language they speak! So you don't have people who speak Spanish and try to communicate when all other players speak English. Another thing they should do ask for age just so that theirs a barrier between people 13+ and younger ones. Still GGI gave it five stars because at first I didn't like it because I couldn't play with my friends but then I figured out how to play with them you just create a party but other than that the game is excellent and it doesn't have ads like other games.The games notice for details:More Info: Google Play StoreYou Can Also Like This Game:➡ Call of Duty®: Mobile MOD APK Latest Game For Android Free Download➡ Rise of Kingdoms APK Mod Latest Game For Android Free DownloadBlockman Go Mod Apk 2.5.1 Android Game Unlimited Money For AndroidThe game Loverboys are Enjoy this popular game.Thanks All games lover boy.
