Mappa seychelles dettagliata pdf

Mappa seychelles dettagliata pdf. Seychelles. An image of the island of Praslin, with the characteristic granite rocks that directly sink into the tropical waters in the Indian Ocean the ingredients to live a cruise ground, an exceptional cruise, there are all. Constant and regular twenty, good climate, almost always optimal sea conditions, reduced distances between one landing and another, spectacular sites for diving, coral islets made of palm trees and clear sand rings. In addition, the Seychelles and Mauritius have well-equipped marina, sailing schools and yachts clubs that organize important races. Short navigations The cruises to discover the Seychelles archipelago start from Mahà ©, very green island, covered with palm trees and frangipani, and bring to the Inner Islands, or the internal islands, granite training, such as Praslin, La Digue, Petit Sour, Cocos Island, Bobby and Aride. For those who love diving there are shipments to the Amirantes archipelago and towards coral islands like Alphonse, Desroches, Poivre, St. Joseph, with dozens of wrecks, gorgonie forests and walls that are lost in the blue of the abysses. Snorkeling among the giant turtles The most long itineraries point to the Aldabra circular atoll, of volcanic origin, consisting of four main islands: Grand Terre, Malabar, Polymnie and Picard, to which some islets and rocks are added. For its distance and the perfect marine conditions atoll, from 1982, a UNESCO World Heritage Site. A sort of Indian Ocean Galü pagos hosting the most numerous colony in the world of giant turtles. In this area, in the months of March and April, you can participate in a shipping on the Sailing Sea Star Sailing Yacht, designed for cruises in corners so remote, where only scientists, researchers and rangers live. In the company of Guy Esparon, an expert naturalist born and raised in the Seychelles, visits the Aldabra research center and are not only diving, but also snorkeling in the canals of the islands, such as East Channel or the Houreau pass. With twin sailing ships at the Inner Islands just as exciting is the cruise on board wooden sailing ships, such as Sea Pearl and the Seashell twins, Star, Bird of the Silhouette Cruises company, which has been proprieting naturalistic shipments to the Seychelles since 1997. On board these floating islands, but in continuous movement, the motto is: "No news, no shoes", a way to remove the line with the outside world, so much so that the shoes are abandoned in a chest And take out only for hiking on the ground. The Sea Pearl itinerary brings in the most internal part of the archipelago to the discovery of postcard islands, immersed in palm forests and surrounded by white sand: La Digue, Grand and Petit Soeur, Cocos Island, Praslin, Bobby and Aride Island. The captain, every morning, decides the route according to the winds. The week is marked by natural rhythms: wake up early, landing on the islands, seawatching adventures, with masks and fins, in the company of giant turtles and colorful fish, sun and sea baths. Many opportunities to explore the still uncontaminated nature within the islands. As in Praslin, where an eco-treasure, VallÃf © and de never, considered a UNESCO World Heritage Site. It is a very dense jungle, crossed by many paths, where the famous Coco de Mer, tropical trees that are almost 200 years old, up to 40 meters. On the island of Curieuse you visit the turtle conservation center, while in the natural reserve of the Arid island, some species of birds are observed and go up to the plus point of view to see the spectacular flight of dozens of Fregate. Custom cruise The Swiss society Floating Life proposes, instead, the possibility of making personalized itineraries in the Seychelles archipelago or Mauritius. In the Indian Ocean they cross Exclusive boats. The 31-meter Blue Sky Motoryacht, built by Codecasa Codecasa di Viareggio (which also made Armani and Dolce & Gabbana boats), or Odissey, a yacht built by the Naval shipyards Rodriquez of La Spezia. Boats and crew are at the complete disposal of guests, who have the last word on the program of the day. In addition to luxury, comfort and absolute privacy, these yachts also offer the exclusive "Diving Experience" service, or a personal instructor, a professional PADI, which accompanies in diving and allows you to get the patent. Training takes place on board where the latest generation materials and accessories are available to guests, including a portable decompression chamber. To learn more and to organize your trip, see the address page How to discover the Seychelles and Mauritius by sea. Useful information on a cruise between Seychelles and Mauritius do not forget about ... A, © Reserved reproduction Find theme parks, Disney hotels, restaurants and entertainment.
