Solidworks api training manual pdf

SolidWorks API Training Prerequisites: SolidWorks Essentials, Visual Basic programming Description: API Fundamentals teaches use of SolidWorks API (Application Programming Interface) to automate and customize SolidWorks for Design Automation, Knowledge Based Engineering and Customization for Higher Design Productivity and Design Knowledge Re-use. Course Duration: 3 days Introduction About This Course Windows® XP Use of Color Getting Started Macro Recording Tips Lesson 1: Using the Macro Recorder Macro Recording Macro Toolbar Understanding How Macro Code Works Understanding How to Call Members on API Interfaces Passing Parameters Cleaning Up Code Adding Forms to a Macro Lesson 2: The API Object Model SolidWorks API Object Model Application Objects Case Study: Connecting to New Documents Case Study: Connecting to Existing Documents Lesson 3: Setting System Options & Document Properties User Preferences - System Options User Preferences - Document Properties Locating the Correct APIs and Enumeration Values UserPreference Tables For System Options UserPreference Tables For Document Properties Lesson 4: Automating Part Design Case Study: Automation Tool for Parts Lesson 5: Assembly Automation Case Study: Automation Tool for Assemblies Lesson 6: Drawing Automation Case Study: Automating Drawing Creation Lesson 7: Selection and Traversal Techniques Case Study: Programming With a Selected Object The SolidWorks BREP Model Case Study: Body and Face Traversal Case Study: Feature Manager Traversal Lesson 8: Adding Custom Properties and Attributes Case Study: Custom Properties Case Study: Configurations With Custom Properties Case Study: File Summary Information Case Study: Document Attributes The Attribute Objects Case Study: Face Attributes Lesson 9: The SolidWorks API SDK The API SDK Case Study: Creating a VB.NET Add-In Case Study: Creating a C# Add-In Case Study: C++ Add-Ins Choosing a Programming Language Lesson 10: Customizing the SolidWorks User Interface Case Study: Customizing the UI With VB.NET Understanding The Add-in Code Property Pages Property Page Groups and Controls Removing Menus and Toolbars Other Areas of Customization Lesson 11: Notifications Notifications Notifications in VBA Case Study: Simple Notification Case Study: Using Notifications in .NET Appendix: Macro Feature Batch Conversion 1 Batch Conversion 2 Assembly Traversal Custom Model View ACADÉMIX is a training division of EGS India, started in 1996, to impart leading edge technology to the design and development engineers. Addressing the Fit, Form and Functional aspects of design, the training provided is intended to address real-world challenges. Corporates and Individuals are trained in many facets of Engineering Design. Some of them are: Computer Aided Design using SolidWorks Finite Element Analysis, Kinematic Analysis and CFD Analysis Geometric Dimensioning & Tolerancing Tolerance Stack Up Analysis to Predict Assembly Build and Performance Structural Dynamics Did you know? A Career in Design is an exciting exprience and reward to Creativity, Imagination and Perseverance ! Connecting to a VaultFiles Folders Items & ReferencesUsers & GroupsCard Variables Versions and RevisionsAdd-In ApplicationsTask Add-In ApplicationsC# ExamplesThe SOLIDWORKS API training guide will be supplied at the beginning of class and is yours to keep.Students will be able to use the SOLIDWORKS API and VBA to create applications that will customize and automate your use of SOLIDWORKS.Students attending this course are expected to have the following:• The Administering SOLIDWORKS PDM course. • Basic experience with the SOLIDWORKS PDM software. • Experience with the Windows™ operating system, and knowledge of a programming language, preferably Visual Basic™ 2005 or later. • In order to get the most out of this class, students should be familiar with the concepts of interfaces, classes, structures, enumerations, collections and recursion. I would like to thank Multisoft team for their constant support and help that they extended during my study period. I gained proficiency in planning, initiation, closing, and execution, and now I am moderately proficient in monitoring and controlling process groups and cleared my PMP exam on 30th May. I am thankful to Multisoft for the same. I would like to especially thank the Training Advisor for the constant support, as all my queries were answered properly. Also, the sessions were arranged to clarify doubts, along with the mock test sessions. Abhishek Project Management Professional (PMP) Initially I was hesitant to go for HTML, CSS, and PHP training. Although the Internet offers a lot of content, but there exists a gap in learning and practicing. On enrolling for PHP training at Multisoft Systems, I got all what I was looking for. My trainer was willing to provide me all the support required to to answer the my queries. I guarantee that such assistance is not provided anywhere else in Delhi NCR. I would definitely recommend Multisoft Systems to all my peers because of the training course, so wonderful that covers all areas of programming and web designing are fulfilled. I will always remember this training as it lifted me to a level where I can be independent in understanding computer languages. Shashvant Walia HCL It was really a very valuable and good training. The trainer was well versed with the subject and provided very effective training to the participants. The feedback was really appreciable. After the course, the participants were benefitted very much. Telecommunication Consultants India Ltd. (TCIL) PMP Training I would say the skills and knowledge of the trainer were excellent. His way of teaching was also good. He always ensures that students should understand the concept and try to teach in the way which is easy to grasp the concepts. He was supportive in clearing the doubts throughout the classes. Juhvy Kaur Dhingra Information Security Analyst, Bank of America Attending RHCSA training from Multisoft Systems was a complete package of learning, fun, and problem solving. I appreciate the teaching style of the trainer and his involvement into sessions. I'm sure Multisoft Systems can be the right training destination for training on any technology. Farhan Siddiqui RHCSA Training solidworks api training manual pdf. solidworks api fundamentals training manual
